DOCUMENT HISTORY

Last Release Date	22 nd April 2021
Softcopy Filename	Content and Consent Template Registration (PE)

2. INTRODUCTION

1) Consent:

“Consent” means any voluntary permission given by the customer to sender to receive commercial communication related to specific purpose, product, or service. Consent may be explicit or inferred.

“Explicit consent” means such consent as has been verified directly from the Recipient in a robust and verifiable manner and recorded by Consent Registrar as defined under these regulations.

“Inferred Consent” means any permission that can be reasonably inferred from the customer’s conduct or the Relationship between the Recipient and the Sender

2) Consent templates:

means a template of content which is presented to the customer while acquiring his consent and clearly mentions purpose of the consent and details of sender.

3) Content Template:

a) **For Transaction:**

means a template of content registered by any sender with the access provider for sending transactional message, service message or transactional voice call, service call for the purpose of commercial communication and contains content which may be a combination of fixed part of content and variable part of content, where fixed part of content is that part of content which is common across all commercial communications sent to different recipients for same or similar subject; variable part of content is that part of content which may vary across commercial communications sent to different recipients for same or similar subject on account of information which is very specific to the particular transaction for a particular recipient or may vary on account of reference to date, time, place or unique reference number;

Eg: Message which contains One Time Password (OTP) and requires to complete a banking transaction initiated by the bank customer.

b) **For Promotion**

means a template of content registered by any sender with the access provider for sending promotional message or promotional voice call for commercial communication and contains content which is fixed content and common across all commercial communications sent to different recipients for same or similar subject;

c) For Service Inferred:

Informative SMS other than OTP will fall into the category of Service Implicit route. Using this route, important notifications regarding product and services such as purchase confirmation messages, order status, alerts, reminder SMS, etc. can be conveyed to the customers. Promotional SMS cannot be transmitted using the Service Implicit route.

- Confirmation messages of a net banking or a credit/debit transaction.
- Product purchase confirmation.
- delivery status of a parcel.
- OTP required for e-commerce website, app login, social media apps, KYC, etc.
- Messages from schools regarding attendance/transport.
- Messages from hospitals/clinics regarding appointment/discharge reports.
- Service messages from car workshops, gadget service centers.

d) For Service Explicit:

SMS sent to the registered customers after receiving their consent will come under the category of Service Explicit SMS. As an example, if a ICICI Bank customer has given consent to receive promotional offers from ICICI, then these SMS will be included in the Service Explicit category. If at any point of time, the customer withdraws and opt-out of receiving these texts, then the SMS will be considered Promotional.
